It's not often that a professional is on the cutting edge of his field but Henry Seltzer is no stranger to breaking new ground in astrology. In this latest contribution, he graces us with pioneering insights on Eris - a dwarf planet that he proves deserves consideration. The pages are filled with well researched chart examples and analysis supporting his archetypal views on how Eris functions in a horoscope. This book deserves space in your mind and on your shelf; Seltzer's contributions on Eris is a definite enhancement to astrological theory. Maria DeSimone [www.InsightfulAstrology.com](http://www.InsightfulAstrology.com) In this cogent study of Eris, Henry Seltzer is doing bold, groundbreaking work on the astrological frontier. I've marveled at the slowness of the astrological community to embrace this new planet despite its being slightly bigger than Pluto. Perhaps that is because these new worlds always represent new, emerging possibilities in consciousness, and thus tend to frighten people. Thank you, Henry, for not being afraid. Steven Forrest, author of *The Inner Sky* Mr. Seltzer's book on Eris offers groundbreaking research into the field of astrology. His description of Eris in each of the houses is eye-opening and offers fresh insights into an area of life in which we need to develop the feminine warrior aspect of ourselves as part of our life purpose.
