True Love Poetry.....: Roses are red, violets are blue... Marina Mindham

'True Love Poetry' is a romantic anthology, which is sometimes serious and sometimes funny and which offers many poems that will appeal to all ages of people.

Marina Mindham has written 'True Love Poetry' to make this anthology capable of being interpreted on many different levels. The poetry relates to themes which may resonate with some modern readers who don't necessarily want to be spoon fed about love or poetry, but who want to think for themselves about what it means to them. People may not want to be told about love; they may wish to think about their own experiences as everyone has different encounters with love, as it is a totally unique experience. These poems are therefore prompts to reflect on. Some people may take 'True Love Poetry' literally, whereas some may find that they can see humour in some of the poems and they may find other meanings. Poetry is such a highly subjective means of communicating that you may see totally different things in the poems from what Marina Mindham sees- that is a sign that poetry has sparked off the imagination, and that it has created its own meaning to you. It would be interesting to share poems and see what friends make of one particular poem, either from this anthology or from another...

Poetry has progressed since when perhaps we were younger and we may write in a card 'If $1+1=2$, I love you!' or something similar, and yet expressing emotions about love can sometimes feel difficult for reasons to do with modern life. It may be that people don't have enough spare time to think of fine tuning their visions about love, or they may simply think that in a post- feminist age, love as a romantic concept has become a cliché. They may not wish to be 'in love', having had difficult experiences such as divorce, or they may simply dislike the emotions that go into poetry, preferring factual things, or simply being on the internet instead. For those who feel that love poetry is not for them, perhaps try to write your own, whether it be about a friend, a pet or a particular place and see whether you find that your own engagement with writing poetry liberates you from past feelings about it, or prejudices?

Some people may find the whole concept of love poetry old fashioned, yet some may actually prefer the traditional way that love poems were once written. This anthology looks at love in terms of the melodramatic way it may have been represented in the past, while bringing in modern themes and language.

Marina Mindham is an English teacher who enjoys playing around with words. She hopes that in reading her anthology, you might be inspired to write your own poetry!
