Metallica and Philosophy: A Crash Course in Brain Surgery

Metallica and Philosophy: A Crash Course in Brain Surgery

Hit the lights and jump in the fire, you're about to enter the School of Rock! Today's lecture will be a crash course in brain surgery. This hard and fast lesson is taught by instructors who graduated from the old school—they actually paid \$5.98 for *The \$5.98 EP*. But back before these philosophy professors cut their hair, they were lieutenants in the Metal Militia.

- A provocative study of the 'thinking man's' metal band
- Maps out the connections between Aristotle, Nietzsche, Marx, Kierkegaard, and Metallica, to demonstrate the band's philosophical significance
- Uses themes in Metallica's work to illuminate topics such as freedom, truth, identity, existentialism, questions of life and death, metaphysics, epistemology, the mind-body problem, morality, justice, and what we owe one another
- Draws on Metallica's lyrical content, Lars Ulrich's relationship with Napster, as well as the documentary *Some Kind of Monster*
- Serves as a guide for thinking through the work of one of the greatest rock bands of all time
- Compiled by the editor of *Seinfeld and Philosophy: A Book about Everything and Nothing* and *The Simpsons and Philosophy: The D'oh! of Homer*
