Are your children able to hear all the sounds in words when you play sound games? Do they know the sounds each letter makes? Do they tell you little stories/give you news about their life, their interests? Then it's time for movable alphabet work!

20 cards for each vowel and high frequency letter (r,s,t,n) and 10 cards for each other letter

Rounded corners to acknowledge the tactile sensitivities of those small hands

Cards are approx. 1.25" wide x 2" high

Fully laminated

Fits into an egg-carton or a craft box (sold separately)

Comes with a killer Montessori lesson plan that will bring the alphabet work to life

This is a classic Montessori material designed to help children reproduce words with symbols even before their hands can manage a pencil. With a selection of letters before them, children do not need to sort through their entire memory of written symbols (which include numbers and graphical representations) to find what they seek. With just 26 (or you can put out fewer) letters to choose from, their possibility of phonetically spelling the word they have in mind increases dramatically. Thus, we can give children a gradual, gentle path to follow as they learn to create words. They can take baby steps, build on their success, and build their confidence along the way.
