Particle Physics and Cosmology: Second Tropical Workshop, San Juan, Puerto Rico 1-5 May 2000 (AIP Conference Proceedings)

Particle Physics and Cosmology: Second Tropical Workshop, San Juan, Puerto Rico 1-5 May 2000 (AIP Conference Proceedings)

The Standard Model offers no fundamental explanation for the origin of the fermion mass and mixing parameters, except that they arise from Yukawa couplings, which are free parameters of the Model. The Workshop addresses various theoretical, phenomenological, and experimental issues concerning quark and lepton masses and mixings, which are central to solving the long-standing fermion mass problem. Following the trend of the First Tropical Workshop (AIP CP 444), the focus is again the presentation of the current status of the main accelerator and non-accelerator neutrino mass experiments, such as Super-Kamiokande, and SNO, the future experimental projects, e.g., MINOS, and some of the phenomenology related to them. Also included are reviews of the theoretical and phenomenological ideas related to the tests of the "direct" CP violating effects that are expected to occur in both the K and the B meson systems, including discussions of future experimental projects.

From reader reviews:

Michael Duckett:

Reading can called imagination hangout, why? Because if you are reading a book especially book entitled Particle Physics and Cosmology: Second Tropical Workshop, San Juan, Puerto Rico 1-5 May 2000 (AIP Conference Proceedings) your thoughts will drift away trough every dimension, wandering in each and every aspect that maybe unfamiliar for but surely can become your mind friends. Imaging each and every word written in a reserve then become one type conclusion and explanation this maybe you never get prior to. The Particle Physics and Cosmology: Second Tropical Workshop, San Juan, Puerto Rico 1-5 May 2000 (AIP Conference Proceedings) giving you an additional experience more than blown away the mind but also giving you useful facts for your better life in this particular era. So now let us explain to you the relaxing pattern the following is your body and mind are going to be pleased when you are finished reading through it, like winning an activity. Do you want to try this extraordinary paying spare time activity?

Bernard McLaren:

Do you have something that you prefer such as book? The reserve lovers usually prefer to decide on book like comic, limited story and the biggest one is novel. Now, why not striving Particle Physics and Cosmology: Second Tropical Workshop, San Juan, Puerto Rico 1-5 May 2000 (AIP Conference Proceedings) that give your pleasure preference will be satisfied through reading this book. Reading behavior all over the world can be said as the method for people to know world better then how they react to the world. It can't be said constantly that reading practice only for the geeky individual but for all of you who wants to end up being success person. So , for every you who want to start reading as your good habit, you may pick Particle Physics and Cosmology: Second Tropical Workshop, San Juan, Puerto Rico 1-5 May 2000 (AIP Conference Proceedings) become your personal starter.

Tanisha Goss:

Can you one of the book lovers? If so, do you ever feeling doubt when you are in the book store? Make an effort to pick one book that you never know the inside because don't evaluate book by its deal with may doesn't work here is difficult job because you are frightened that the inside maybe not seeing that fantastic as in the outside look likes. Maybe you answer can be Particle Physics and Cosmology: Second Tropical Workshop, San Juan, Puerto Rico 1-5 May 2000 (AIP Conference Proceedings) why because the great cover that make you consider concerning the content will not disappoint anyone. The inside or content is fantastic as the outside or cover. Your reading 6th sense will directly guide you to pick up this book.

Erin Harmon:

Reading a book to get new life style in this season; every people loves to read a book. When you read a book you can get a lot of benefit. When you read ebooks, you can improve your knowledge, since book has a lot of information on it. The information that you will get depend on what kinds of book that you have read. If

you want to get information about your analysis, you can read education books, but if you want to entertain yourself you can read a fiction books, such us novel, comics, as well as soon. The Particle Physics and Cosmology: Second Tropical Workshop, San Juan, Puerto Rico 1-5 May 2000 (AIP Conference Proceedings) will give you a new experience in studying a book.
