Tactics of Hope: How Social Entrepreneurs Are Changing Our World Wilford Welch

The Tactics of Hope is a call to action for individuals around the world who are concerned about global issues such as poverty, human rights, social justice, and environmental sustainability, but are not clear what steps they might best take to move from concern to effective action.

The book recounts the inspiring stories of twenty-seven social entrepreneurs, offering readers innovative approaches to tackling the pressing issues of our time themselves. Wilford Welch's global mosaic brings together stories of disparate individuals who are, each in their own way, helping to create a shared vision of progress. Social entrepreneurs see opportunities where others see barriers. Daring to think outside the box, they are part of the fastest-growing grassroots movement in human history. This book is both a celebration of the individual successes of today and a guide for what is possible tomorrow.
