A Drop Around the World

Barbara McKinney

A Drop Around the World Barbara McKinney

This book is a year-after-year favorite with teachers. It engagingly leads readers around the world following a drop of water--whether as steam or snow, inside a plant or animal, or underground--teaching the wonders and importance of the water cycle. (There is lots of geography, too.) Four pages of science about the qualities of water are included. A teacher guide is also available (sold separately).
