Now available for the first time in trade paperback, the bestselling account of America's worst naval disaster--and of the heroism of the men who, against all odds, survived

On July 30, 1945, the *USS Indianapolis* was torpedoed in the South Pacific by a Japanese submarine. An estimated three hundred men were killed upon impact; close to nine hundred sailors were cast into the Pacific Ocean, where they struggled to stay alive, battered by a savage sea and fighting off sharks, hypothermia, and dementia. By the time help arrived--nearly four days and nights later--all but 317 men had died. How did the navy fail to realize the *Indianapolis* was missing? Why was the cruiser traveling unescorted in enemy waters? And how did these 317 men manage to survive? Interweaving the stories of three survivors--the captain, the ship's doctor, and a young marine--journalist Doug Stanton has brought this astonishing human drama to life in a narrative that is at once immediate and timeless.

The definitive account of this harrowing chapter of World War II history--already a bestseller in its hardcover and mass market editions--*In Harm's Way* is a classic tale of war, survival, and extraordinary courage.
