**Current Psychotherapies** Raymond J. Corsini, Danny Wedding

Used in top counseling, psychology, and social work programs, CURRENT PSYCHOTHERAPIES is the ideal resource to not only help you excel in the course, but also to learn, compare, and apply the major systems of psychotherapy in a way that will be meaningful in your own practice. Each contributor is either an originator or a leading proponent of one of the systems, and each presents the basic principles of the system in a clear and straightforward manner, discussing it in the context of the other systems. Theory chapters include a case example that guides you through the problem, evaluation, treatment, and follow-up process. Accompanying CURRENT PSYCHOTHERAPIES is CASE STUDIES IN PSYCHOTHERAPY, each case demonstrates the basic techniques and methods of the theory being illustrated. This edition retains classic case studies by Harold Mosak, Carl Rogers, Albert Ellis, Arnold Lazarus, and Peggy Papp.
