Step by Step Model Drawing: Solving Word Problems the Singapore Way Char Forsten

Model drawing, adapted from a Singapore approach to solving word problems, offers a clear, pictorial approach to teaching logic, number relationships, and problem solving. In this book, Char introduces the step by step process and helps you guide students in applying it to sample problems providing examples ranging from simple addition to fractions, decimals, ratio, rate, and percent. Then she follows up with plenty of extra problems all fully reproducible so your students can practice what they have learned. Want to reinforce the simple steps of model drawing once you've taught them?
