Introducing a fresh perspective on wealth management, with proven solutions to the challenges of preserving wealth and investing well in turbulent times

Family Wealth Management is coauthored by two experts in the field of private wealth - one, a former director of Bain & Company and the chairman of two of the world's largest family trusts, and the other, a CEO of a leading global family office and professor of finance from University of Toronto. The book introduces you to a unique model of wealth management that produces the desired return outcomes while being consistent with a family's overarching goals and values. The approach combines the best traditional investment and portfolio management practices with innovative new approaches designed to successfully navigate through economic climates both fair and foul. - How to establish a practical, integrated investment framework that will ensure a consistent, disciplined approach in all environments

- How to effectively monitor performance and respond to the need for change
- How to carefully select and manage an ecosystem of experienced, trusted financial advisors who will provide critical guidance through challenging period ahead
- How to successfully engage and educate the family to preserve and enhance the family's financial wealth and human capital over the generations
