Mobile Point-of-Care Monitors and Diagnostic Device Design (Devices, Circuits, and Systems)

Mobile Point-of-Care Monitors and Diagnostic Device Design (Devices, Circuits, and Systems)

Efficient mobile systems that allow for vital sign monitoring and disease diagnosis at the point of care can help combat issues such as rising healthcare costs, treatment delays in remote and resource-poor areas, and the global shortage of skilled medical personnel.

Covering everything from sensors, systems, and software to integration, usability, and regulatory challenges, **Mobile Point-of-Care Monitors and Diagnostic Device Design** offers valuable insight into state-of-the-art technologies, research, and methods for designing personal diagnostic and ambulatory healthcare devices. Presenting the combined expertise of contributors from various fields, this multidisciplinary text:

- Gives an overview of the latest mobile health and point-of-care technologies
- Discusses portable diagnostics devices and sensors, including mobile-phone-based health systems
- Explores lab-on-chip systems as well as energy-efficient solutions for mobile point-of-care monitors
- Addresses computer vision and signal processing for real-time diagnostics
- Considers interface design for lay healthcare providers and home users

Mobile Point-of-Care Monitors and Diagnostic Device Design provides important background information about the design process of mobile health and point-of-care devices, using practical examples to illustrate key aspects related to instrumentation, information processing, and implementation.

From reader reviews:

Elizabeth Pipkin:

What do you with regards to book? It is not important with you? Or just adding material when you really need something to explain what the one you have problem? How about your spare time? Or are you busy man or woman? If you don't have spare time to complete others business, it is gives you the sense of being bored faster. And you have time? What did you do? Every person has many questions above. They need to answer that question because just their can do which. It said that about publication. Book is familiar in each person. Yes, it is correct. Because start from on pre-school until university need this specific Mobile Point-of-Care Monitors and Diagnostic Device Design (Devices, Circuits, and Systems) to read.

Lynne Silva:

Hey guys, do you wants to finds a new book to see? May be the book with the subject Mobile Point-of-Care Monitors and Diagnostic Device Design (Devices, Circuits, and Systems) suitable to you? The book was written by well-known writer in this era. Typically the book untitled Mobile Point-of-Care Monitors and Diagnostic Device Design (Devices, Circuits, and Systems)is the main one of several books in which everyone read now. This book was inspired a lot of people in the world. When you read this book you will enter the new way of measuring that you ever know prior to. The author explained their strategy in the simple way, consequently all of people can easily to comprehend the core of this book. This book will give you a lots of information about this world now. So you can see the represented of the world on this book.

Paige Robinson:

This Mobile Point-of-Care Monitors and Diagnostic Device Design (Devices, Circuits, and Systems) is great book for you because the content that is full of information for you who all always deal with world and possess to make decision every minute. This kind of book reveal it facts accurately using great organize word or we can declare no rambling sentences inside it. So if you are read the item hurriedly you can have whole info in it. Doesn't mean it only offers you straight forward sentences but tricky core information with beautiful delivering sentences. Having Mobile Point-of-Care Monitors and Diagnostic Device Design (Devices, Circuits, and Systems) in your hand like having the world in your arm, facts in it is not ridiculous just one. We can say that no e-book that offer you world within ten or fifteen moment right but this reserve already do that. So , this is certainly good reading book. Hi Mr. and Mrs. stressful do you still doubt that will?

Marjorie Calhoun:

Reading a guide make you to get more knowledge from this. You can take knowledge and information from the book. Book is created or printed or created from each source that filled update of news. On this modern era like at this point, many ways to get information are available for a person. From media social such as newspaper, magazines, science reserve, encyclopedia, reference book, story and comic. You can add your

knowledge by that book. Ready to spend your spare time to open your book? Or just searching for the Mobile Point-of-Care Monitors and Diagnostic Device Design (Devices, Circuits, and Systems) when you needed it?
